PLEASE NOTE: ☐ Dr. Ingram is semi-retired and has limited availability for scheduled appointments. Many 1st Consultation clients are choosing to mail in their pet's DNA in order to have needs taken care of sooner. ☐ (We are also currently STILL dealing with the widening of Franklin Road.) Thanks everyone for all the prayers!

If you have any questions concerning your pet's health or would like to make an appointment to see Dr. Ingram please phone the animal hospital during regular business hours... Note: We often work after hours... If a need arises and we are in the building we will pick up the phone! 615-377-6457. ☐

LONG DISTANCE CONSULTATIONS using your pet's DNA... We are able to diagnose ailments & prescribe herbal treatments, do food allergy testing, etc. using Applied Kinesiology or

Muscle Reflex Testing.

Conducting a consultation with DNA would be no different than if we held your pet in the exam room.

This allows us the freedom to work after hours and take care of your pet's needs and saves many clients hours of drive time. If you would like more information on how to proceed in this manner you can phone the office or email me (Barbara Ingram)... FRAH@comcast.net

Please do NOT attempt to leave messages on the phone recorder as we do not have the time or personnel to return these calls.
